

They survived the earthquake.  
We'll help them survive  
what comes after.

## The headlines will fade. The need won't.

Direct Relief International has been providing medical assistance, including essential medicines and equipment, to Haiti since 1964. Right now, we're rushing life-saving medical aid to the survivors of the biggest earthquake Haiti has seen in 200 years.

Our work extends beyond Haiti. Every day, Direct Relief strengthens the impact of in-country health professionals in over 60 countries, including the US. We provide our healthcare partners with the medical resources they need to care for their patients, helping improve the quality of life for people affected by disaster, civil unrest, and poverty.

100% of your donation is used for relief programs.  
All non-program expenses are paid by a generous bequest.

**Donate at [DirectRelief.org](http://DirectRelief.org) to help improve the lives  
of people in Haiti right now and long after the headlines fade.  
Or donate \$10 to Haiti relief efforts by texting  
"Give10" to 20222.**

Standard text message and data rates may apply.

**Direct Relief**   
**INTERNATIONAL**  
*healthy people. better world.™ since 1948.*
